

# Hi, I'm Joseph Onipede.

## Professional Summary

I am an experienced personnel in the development of web applications & mobile apps. What really got me into the field, though, is the passion I have for it, and my eagerness to learn more has been making me scale through the journey. Throughout my endeavor, I've noticed that I've always been good at what I do. Outside work, I spend an unhealthy amount of time writing code, running, taking long naps, and obsessing over algorithmic optimization. Moving forward, I plan to expand my experience across different industries.

## Experience

- **MOBILE APP DEVELOPER** Aug 2022 - Current  
*Placid Global International, Maryland, Lagos*
  - I converted Figma designs to beautiful, responsive, and interactive Ui.
  - Consumption of API with architectures like MCV, MVP, MVVM & Clean Architecture.
